SCHOOL-COMMUNITY RELATIONS

1017.0 PARENT INVOLVEMENT

PURPOSE

The purpose of this policy is to assure there is an ongoing partnership between families, communities and schools. We believe such a partnership is fundamental to the academic and social success of children. From this partnership a support system will evolve that will improve the self-worth of students and families, will have a positive effect on student achievement, and will create a sense of cooperative responsibility in the educational process.

1. Definition- The term “family/community” consists of a partnership which expands to include biological, adoptive and foster parents, other family members (including divorced parents), and significant others whose involvement may be important to the child.

2. Rational- The purpose of this policy is to encourage collaboration between families, community, and schools in assuming an active role in ensuring excellence in the education of our children. It serves to establish family/community involvement as a high priority.

EVALUATION

The Superintendent or designee will conduct, at the county and school level, annual evaluation to identify strengths and weaknesses, identify areas of needed improvement, determine the degree of family/community involvement and write recommendations for revisions of county policy where indicated.
